NCSAC Discussion and Recommendations

1. Do you have any suggestions for additional data items to further characterize Study recruitment, logistics, or operations?
2. Do you have any suggestions on field management and data collection practices and methodologies?
3. Are there particular operational analyses you would like performed?
4. Are there types of data collection instruments or methods evaluations that you would like to recommend for our evaluation of Study visit measurements?
5. Are there open source informatics platforms that you have experience with that may be applicable to the National Children's Study Vanguard Study?
6. Do you have comments on the facilitated decentralization approach to data security or Federal Information Security Management Act of 2002 compliance?
7. Do you have specific comments related to the phase in approach to building complexity in the Study visit assessments?
