January 18, 2011

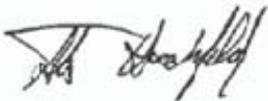

Dear Colleagues:

We are pleased to provide you with a series of documents relating to the January 2011 meeting of the National Children's Study Federal Advisory Committee (NCSAC). As you know, our meeting will be held on January 26 at the Natcher Conference Center on the National Institutes of Health campus in Bethesda, MD. Invited participants include members of the NCSAC, the Interagency Coordinating Committee (ICC), and the Program Office (PO).

The January NCSAC meeting will include discussions on sharing educational materials with potential participants and communities, as well as compensating providers involved in recruitment efforts. Additionally, there will be a presentation on the Vanguard Study recruitment data, and a related report from the newly formed working group on plans for review of legacy Vanguard data.

If you have any questions about the upcoming meeting or the information included in this letter, please feel free to contact me or Ms. Kate Winseck, Executive Secretary of the NCSAC. We look forward to seeing you at the January NCSAC meeting.

Sincerely,

Steven Hirschfeld, MD PhD
Captain, U.S. Public Health Service
Associate Director for Clinical Research
Acting Director, National Children's Study
